

# OUTBC

NEW YORK  
SEPTEMBER  
26-27, 2008

***Have you ever wondered if banking and consulting companies are good places to work for gays, lesbians, bisexuals, and transgender people?***

***What about how comfortable you'd feel being open about your sexual orientation and/or gender identity in a corporate environment?***

***Have you worried being GLBT could hurt your candidacy or career advancement?***

For answers to these questions and a chance to meet other GLBT students and professionals in banking and consulting, join us at the fifth annual Out for Undergraduate Business Conference

*Overall, amazing! Thanks so much for putting this together. The ability to interact with like-minded undergraduates, professionals and amazing speakers was incredible!*
